Subject Index

A

Affective Disorders
The interaction between depressive affective disorder and neuropsychological test performance in multiple sclerosis patients. Schiffer RB, Caine ED. Winter 28–32
A pilot follow-up study of childhood soft signs and the development of adult psychopathology (clinical and research report). Hollander E, DeCaria CM, Aronowitz B, Klein DF, Liebowitz MR, Shaffer D. Spring 186–189
Aggression
Application of the Carolina Nosology of Destructive Behavior. Eichelman B, Hartwig A. Spring suppl S15–S21
Clinical Aggression Research Conference: concluding remarks. Ratey JJ, Gutheil CM, Leveroni CL. Spring suppl S69–S74
Development of neuropharmacologically based behavioral assessments of impulsive aggressive behavior. Coccaro EF, Harvey PD, Kupsaw-Lawrence E, Herbert JL, Bernstein DP. Spring suppl S44–S51
The measurement of aggressive behavior: reflections on the use of the Overt Aggression Scale and the Modified Overt Aggression Scale. Ratey JJ, Gutheil CM. Spring suppl S57–S60
The measurement of self-injurious behavior. Gualtieri CT. Spring suppl S30–S34
Measuring and predicting aggression within the context of a personality theory. Barratt ES. Spring suppl S35–S39
Neurological perspectives on aggressive behavior. Bear D. Spring suppl S3–S8
The Overt Aggression Scale: overview and guiding principles. Silver JM, Yudofsky SC. Spring suppl S22–S29
Pitfalls in the assessment and measurement of violence: a clinical view. Lion JR. Spring suppl S40–S43
Problems in human aggression research. deKoning P, Mak M. Spring suppl S61–S65
Rating aggression in the clinical setting, a retrospective adaptation of the Overt Aggression Scale: preliminary results. Sorgi P, Ratey J, Knoedler DW, Markert RJ, Reichman M. Spring suppl S52–S56
Videotape recording of assaults on a state hospital inpatient ward. Crowner ML, Douyon R, Convit A, Volavka J. Spring suppl S9–S14
Violence and temporal lobe lesion: head CT and MRI data (clinical and research report). Tonkonogy JM. Spring 189–196
Alzheimer's Disease
Cerebral magnetic resonance imaging compared in Alzheimer's and multi-infarct dementia. Reed KM, Rogers RL, Meyer JS. Winter 51–57
Delusions in dementia syndromes: investigation of behavioral and neuropsychological correlates. Flynn FG, Cummings JL, Gornbein J. Fall 364–370

Hallucinations and associated factors in Alzheimer's disease. Gilley DW, Whalen MD, Wilson RS, Bennett DA. Fall 371–376
The neuropsychology of depression in the elderly: a comparative study of normal aging and Alzheimer's disease. King DA, Caine ED, Conwell Y, Cox C. Spring 163–168
Observations on the physostigmine syndrome in patients with Alzheimer's disease (clinical and research report). Wirkowski E, Prohovnik I, Young WL. Winter 73–75
Visual evoked potentials in dementia: selective delay of flash P2 in probable Alzheimer's disease (clinical and research report). Coburn KL, Ashford JW, Moreno MA. Fall 431–435

Amphetamines

Neuroendocrine responses to methylphenidate and *d*-amphetamine: applications to attention-deficit disorder. Lurie S, O'Quinn A. Winter 41–50

Anticholinergics

The relationship of serum anticholinergic activity to mental status performance in an elderly nursing home population (clinical and research report). Tollefson GD, Montague-Clouse J, Lancaster SP. Summer 314–319
A retrospective analysis of the effects of anticholinergic medication on memory performance in Parkinson's disease. Levin BE, Llabre MM, Reisman S, Weiner WJ, Brown MC. Fall 412–416

Anxiety

A pilot follow-up study of childhood soft signs and the development of adult psychopathology (clinical and research report). Hollander E, DeCaria CM, Aronowitz B, Klein DF, Liebowitz MR, Shaffer D. Spring 186–189
Positron-emission tomographic studies of the relationship of cerebral glucose metabolism and the magnitude of anxiety and hostility experienced during dreaming and waking. Gottschalk LA, Buchsbaum MS, Gillin JC, Wu J, Reynolds CA, Herrera DB. Spring 131–142

Apathy Syndrome

Apathy: a neuropsychiatric syndrome. Marin RS. Summer 243–254

Attention-Deficit Disorder

Attention and higher cortical functions in schizophrenia. Kenny JT, Meltzer HY. Summer 269–275
Neuroendocrine responses to methylphenidate and *d*-amphetamine: applications to attention-deficit disorder. Lurie S, O'Quinn A. Winter 41–50
A two-part model of stimulant action on attention-deficit hyperactivity disorder in children (neuropsychiatric practice and opinion). McCracken JT. Spring 201–209
What can neurological models of attention, intention, and arousal tell us about attention-deficit hyperactivity disorder? (neuropsychiatric practice and opinion). Voeller KKS. Spring 209–216

B

Basal Ganglia

Spontaneous remission of post-stroke depression and temporal changes in cortical S_2-serotonin receptors (clinical and research report). Mayberg HS, Parikh RM, Morris PLP, Robinson RG. Winter 80–83

Bereavement

Immune variables, depression, and plasma cortisol over time in suddenly bereaved parents. Spratt ML, Denney DR. Summer 299–306

Bipolar Disorder

Cystolic-free calcium concentrations in skin fibroblasts of patients with bipolar disease (letter). Sacchetti E, Malgaroli A. Winter 114
Subcortical hyperintensities on brain magnetic resonance imaging: a comparison of normal and bipolar subjects. Figiel GS, Krishnan KRR, Rao VP, Doraiswamy M, Ellinwood EH Jr, Nemeroff CB, Evans D, Boyko O. Winter 18–22

Books Reviewed

Clinical Neuroimaging: Frontiers of Clinical Neuroscience Series, Volume 4. Edited by Theodore WH. Summer 351
A Concise Guide to Group Psychotherapy. By Vinogradov S, Yalom ID. Winter 112–113
Concise Guide to Treatment of Alcoholism and Addictions. By Frances RJ, Franklin JE. Winter 111–112
Depressive Disorders and Immunity. Edited by Miller AH. Spring 228–229
Handbook of Autism and Pervasive Developmental Disorders. Edited by Cohen DJ, Donnellan AM, Paul R. Spring 227–228
Minor Head Injury. Edited by Levin HS, Eisenberg HM, Benton AL. Fall 456–459
Obsessive-Compulsive Disorder in Children and Adolescents. Edited by Rapoport JL. Spring 229–231
The Psychobiology of Bulimia: Progress in Psychiatry #10. Edited by Hudson JI, Pope HG Jr. Summer 351–352

Brain

Depression after stroke: the importance of cerebral hemisphere asymmetries. Starkstein SE, Bryer JB, Berthier ML, Cohen B, Price TR, Robinson RG. Summer 276–285
EEG coherence of prefrontal areas in normal and schizophrenic males during perceptual activation. Hoffman RE, Buchsbaum MS, Escobar MD, Makuch RW, Nuechterlein KH, Guich SM. Spring 169–175
Failure at task-specific regional brain activation: new conceptualization of a disease entity (neuropsychiatric practice and opinion). Wexler BE. Winter 94–98

Brain-Imaging Techniques

Cerebral magnetic resonance imaging compared in Alzheimer's and multi-infarct dementia. Reed KM, Rogers RL, Meyer JS. Winter 51–57
Quantitative magnetic resonance imaging in Rett syndrome (clinical and research report). Casanova MF, Naidu S, Goldberg TE, Moser HW, Khoromi S, Kumar A, Kleinman JE, Weinberger DR. Winter 66–72
Subcortical hyperintensities on brain magnetic resonance imaging: a comparison of normal and bipolar subjects. Figiel GS, Krishnan KRR, Rao VP, Doraiswamy M, Ellinwood EH Jr, Nemeroff CB, Evans D, Boyko O. Winter 18–22
Violence and temporal lobe lesion: head CT and MRI data (clinical and research report). Tonkonogy JM. Spring 189–196

Brain Injury

Brain injury and cognitive function in late-onset psychotic depression. Lesser IM, Miller BL, Boone KB, Hill-Gutierrez E, Mehringer CM, Wong K, Mena I. Winter 33–40

Brain Tumor

Prospective uses of ECT in the presence of intracranial tumors (letter). Mattingly G, Figiel GS, Jarvis MR, Zorumski CF. Fall 459–463

C

Calcium

Cystolic-free calcium concentrations in skin fibroblasts of patients with bipolar disease (letter). Sacchetti E, Malgaroli A. Winter 114

Catatonia

Catatonia: a contemporary approach (neuropsychiatric practice and opinion). Rogers D. Summer 334–340

Cerebral Infarction
Cerebral infarction in neuroleptic malignant syndrome (clinical and research report). Pullicino P, Galizia AC, Azzopardi C. Winter 75–77
Cerebral Mass
Reply to Drs. Kellner CH, Burns CM, Bernstein HJ, Monroe RR Jr, George MS (letter). Krueger RB, Silver JM. Summer 354
Safe administration of ECT in a patient with a calcified frontal mass. (letter). Kellner CH, Burns CM, Bernstein HJ, Monroe RR Jr, George MS. Summer 353–354
Children
Immune variables, depression, and plasma cortisol over time in suddenly bereaved parents. Spratt ML, Denney DR. Summer 299–306
Neuroendocrine responses to methylphenidate and *d*-amphetamine: applications to attention-deficit disorder. Lurie S, O'Quinn A. Winter 41–50
A pilot follow-up study of childhood soft signs and the development of adult psychopathology (clinical and research report). Hollander E, DeCaria CM, Aronowitz B, Klein DF, Liebowitz MR, Shaffer D. Spring 186–189
A two-part model of stimulant action on attention-deficit hyperactivity disorder in children (neuropsychiatric practice and opinion). McCracken JT. Spring 201–209
What can neurological models of attention, intention, and arousal tell us about attention-deficit hyperactivity disorder? (neuropsychiatric practice and opinion). Voeller KKS. Spring 209–216
Clinical Abstracts
Basic neurosciences. Baraban JM, Rayport S. Winter 104–105, Spring 222–223, Summer 342–343, Fall 453–455
Clinical laboratory and diagnostic testing. Rosse RB. Winter 100–101, Spring 217–218, Summer 343–345, Fall 451–452
Clinical neurology. McNamara ME. Winter 107–108, Spring 225–226, Summer 349–350, Fall 452–453
Clinical neuropsychiatry. Trzepacz PT, McAllister TW. Winter 101–102, Spring 224–225, Summer 346–347, Fall 448–449
Geriatric neuropsychiatry. Hommer D. Winter 105–107, Spring 219–220, Summer 348–349, Fall 446–447
Neuropsychology. Lovell MR, Bilder R. Winter 103–104, Spring 220–222, Summer 345–346, Fall 449–450
Neurosurgery. Toselli R. Winter 99–100, Spring 218–219
Psychopharmacology. Silver JM. Winter 108–110, Spring 223–224, Summer 341–342, Fall 447–448
Clinical and Research Reports
Average reference EEG lateralization in schizophrenic patients. Merrin EL, Floyd TC. Summer 307–314
Cerebral infarction in neuroleptic malignant syndrome. Pullicino P, Galizia AC, Azzopardi C. Winter 75–77
Depression and memory in major depressive disorder. Bornstein RA, Baker GB, Douglass AB. Winter 78–80
Limbic system dysrhythmia: a diagnostic electroencephalogram procedure utilizing procaine activation. Ryback RS, Gardner EA. Summer 321–329
Neurological findings in insomniacs with periodic limb movements. McCall WV, Edinger JD, Lininger A. Fall 429–430
Observations on the physostigmine syndrome in patients with Alzheimer's disease. Wirkowski E, Prohovnik I, Young WL. Winter 73–75
A pilot follow-up study of childhood soft signs and the development of adult psychopathology. Hollander E, DeCaria CM, Aronowitz B, Klein DF, Liebowitz MR, Shaffer D. Spring 186–189
Predicting severity of depression in the elderly at six-month follow-up: a neuropsychological study. King DA, Caine ED, Conwell Y, Cox C. Winter 64–66
The relationship of serum anticholinergic activity to mental status performance in an elderly nursing home population. Tollefson GD, Montague-Clouse J, Lancaster SP. Summer 314–319
Reversibility of psychiatric symptoms in a chronic solvent abuser: a case report. Katzelnick DJ, Davar G, Scanlon JP. Summer 319–321
Spontaneous remission of post-stroke depression and temporal changes in cortical S_2-serotonin receptors. Mayberg HS, Parikh RM, Morris PLP, Robinson RG. Winter 80–83
Violence and temporal lobe lesion: head CT and MRI data. Tonkonogy JM. Spring 189–196
Visual evoked potentials in dementia: selective delay of flash P2 in probable Alzheimer's disease. Coburn KL, Ashford JW, Moreno MA. Fall 431–435
Cocaine
Neurovascular complications of cocaine abuse. Peterson PL, Roszler M, Jacobs I, Wilner HI. Spring 143–149
Cognition
Attention and higher cortical functions in schizophrenia. Kenny JT, Meltzer HY. Summer 269–275
Brain injury and cognitive function in late-onset psychotic depression. Lesser IM, Miller BL, Boone KB, Hill-Gutierrez E, Mehringer CM, Wong K, Mena I. Winter 33–40
Comparison of patients with and without emotional/behavioral deterioration during the first year after traumatic brain injury. Dunlop TW, Udvarhelyi GB, Stedem AFA, O'Connor JMC, Isaacs ML, Puig JG, Mather JH. Spring 150–156
The interaction between depressive affective disorder and neuropsychological test performance in multiple sclerosis patients. Schiffer RB, Caine ED. Winter 28–32
Longitudinal evaluation of neuropsychological function in homosexual men with HIV infection: 18-month follow-up. Saykin AJ, Janssen RS, Sprehn GC, Kaplan JE, Spira TJ, O'Connor B. Summer 286–298
The relationship of serum anticholinergic activity to mental status performance in an elderly nursing home population (clinical and research report). Tollefson GD, Montague-Clouse J, Lancaster SP. Summer 314–319
Computerized Tomography
Depression after stroke: the importance of cerebral hemisphere asymmetries. Starkstein SE, Bryer JB, Berthier ML, Cohen B, Price TR, Robinson RG. Summer 276–285
Violence and temporal lobe lesion: head CT and MRI data (clinical and research report). Tonkonogy JM. Spring 189–196
Corpus Callosum
Aging of the human corpus callosum: magnetic resonance imaging in normal volunteers. Doraiswamy PM, Figiel GS, Husain MM, McDonald WM, Shah SA, Boyko OB, Ellinwood EH Jr, Krishnan KRR. Fall 392–397

D

Delusions
Delusions in dementia: a review. Flint AJ. Spring 121–130
Delusions in dementia syndromes: investigation of behavioral and neuropsychological correlates. Flynn FG, Cummings JL, Gornbein J. Fall 364–370
Dementia
Cerebral magnetic resonance imaging

compared in Alzheimer's and multi-infarct dementia. Reed KM, Rogers RL, Meyer JS. Winter 51–57
Delusions in dementia: a review. Flint AJ. Spring 121–130
Delusions in dementia syndromes: investigation of behavioral and neuropsychological correlates. Flynn FG, Cummings JL, Gornbein J. Fall 364–370
Differential diagnosis of dementia: a comparison between the expert system EVINCE and clinicians. Plugge LA, Verhey FRJ, Jolles J. Fall 398–404
Hallucinations and associated factors in Alzheimer's disease. Gilley DW, Whalen ME, Wilson RS, Bennett DA. Fall 371–376
Visual evoked potentials in dementia: selective delay of flash P2 in probable Alzheimer's disease (clinical and research report). Coburn KL, Ashford JW, Moreno MA. Fall 431–435

Depression

Brain injury and cognitive function in late-onset psychotic depression. Lesser IM, Miller BL, Boone KB, Hill-Gutierrez E, Mehringer CM, Wong K, Mena I. Winter 33–40
Depression after stroke: the importance of cerebral hemisphere asymmetries. Starkstein SE, Bryer JB, Berthier ML, Cohen B, Price TR, Robinson RG. Summer 276–285
Depression and memory in major depressive disorder (clinical and research report). Bornstein RA, Baker GB, Douglass AB. Winter 78–80
ECT-induced delirium in depressed patients with Parkinson's disease. Figiel GS, Hassen MA, Zorumski C, Krishnan KRR, Doraiswamy PM, Jarvis MR, Smith DS. Fall 405–411
Hippocampal abnormalities in depression. Krishnan KRR, Doraiswamy PM, Figiel GS, Husain MM, Shah SA, Na C, Boyko OB, McDonald WM, Nemeroff CB, Ellinwood EH Jr. Fall 387–391
Immune variables, depression, and plasma cortisol over time in suddenly bereaved parents. Spratt ML, Denney DR. Summer 299–306
The interaction between depressive affective disorder and neuropsychological test performance in multiple sclerosis patients. Schiffer RB, Caine ED. Winter 28–32
The neuropsychology of depression in the elderly: a comparative study of normal aging and Alzheimer's disease. King DA, Caine ED, Conwell Y, Cox C. Spring 163–168
Predicting severity of depression in the elderly at six-month follow-up: a neuropsychological study (clinical and research report). King DA, Caine ED, Conwell Y, Cox C. Winter 64–66
Psychostimulants in post-stroke depression. Masand P, Murray GB, Pickett P. Winter 23–27
Sleep EEG in depressed and non-depressed patients with Parkinson's disease. Kostic VS, Susic V, Przedborski S, Sternic N. Spring 176–179
Spontaneous remission of post-stroke depression and temporal changes in cortical S_2-serotonin receptors (clinical and research report). Mayberg HS, Parikh RM, Morris PLP, Robinson RG. Winter 80–83

Dextroamphetamine

Psychostimulants in post-stroke depression. Masand P, Murray GB, Pickett P. Winter 23–27

Diagnostics

Differential diagnosis of dementia: a comparison between the expert system EVINCE and clinicians. Plugge LA, Verhey FRJ, Jolles J. Fall 398–404
Failure at task-specific regional brain activation: new conceptualization of a disease entity (neuropsychiatric practice and opinion). Wexler BE. Winter 94–98
Limbic system dysrhythmia: a diagnostic electroencephalogram procedure utilizing procaine activation (clinical and research report). Ryback RS, Gardner EA. Summer 321–329
Neuropsychiatric decision making: designing nonbinary diagnostic tests. Somoza E, Mossman D. Spring 197–200
Neuropsychiatric decision making: the role of disorder prevalence in diagnostic testing. Mossman D, Somoza E. Winter 84–88
ROC curves and the binormal assumption. Somoza E, Mossman D. Fall 436–439
ROC curves, test accuracy, and the description of diagnostic tests. Mossman D, Somoza E. Summer 330–333

Dissociation

Neurophysiological correlates of hypnosis and dissociation (neuropsychiatric practice and opinion). Spiegel D. Fall 440–445

Dopaminergic Systems

The effects of electroconvulsive shock on Dopamine-1 and Dopamine-2 receptor ligand binding activity in MPTP-treated mice. Sershen H, Wolinsky T, Douyon R, Hashim A, Wiener HL, Lajtha A, Coons EE, Serby M. Winter 58–63

Drug Abuse

Neurovascular complications of cocaine abuse. Peterson PL, Roszler M, Jacobs I, Wilner HI. Spring 143–149
Reversibility of psychiatric symptoms in a chronic solvent abuser: a case report (clinical and research report). Katzelnick DJ, Davar G, Scanlon JP. Summer 319–321

E

Editorials

Allies with a common cause: The American Neuropsychiatric Association and *The Journal of Neuropsychiatry and Clinical Neurosciences*. Fogel B, Schiffer R, Tucker G. Summer 241–242
Electroconvulsive therapy as a probe of the boundaries of neuropsychiatry. Dubovsky SR. Fall 361–363
Psychoanalysis, psychopharmacology, and the influence of neuropsychiatry. Yudofsky SC. Winter 1–5

Elderly

The neuropsychology of depression in the elderly: a comparative study of normal aging and Alzheimer's disease. King DA, Caine ED, Conwell Y, Cox C. Spring 163–168
Predicting severity of depression in the elderly at six-month follow-up: a neuropsychological study (clinical and research report). King DA, Caine ED, Conwell Y, Cox C. Winter 64–66
The relationship of serum anticholinergic activity to mental status performance in an elderly nursing home population (clinical and research report). Tollefson GD, Montague-Clouse J, Lancaster SP. Summer 314–319

Electroconvulsive Therapy

ECT-induced delirium in depressed patients with Parkinson's disease. Figiel GS, Hassen MA, Zorumski C, Krishnan KRR, Doraiswamy PM, Jarvis MR, Smith DS. Fall 405–411.
The effects of electroconvulsive shock on Dopamine-1 and Dopamine-2 receptor ligand binding activity in MPTP-treated mice. Sershen H, Wolinsky T, Douyon R, Hashim A, Wiener HL, Lajtha A, Coons EE, Serby M. Winter 58–63
Electroconvulsive therapy as a probe of the boundaries of neuropsychiatry (editorial). Dubovsky SR. Fall 361–363
Prospective uses of ECT in the presence of intracranial tumors (letter). Mattingly G, Figiel GS, Jarvis MR, Zorumski CF. Fall 459–463
Reply to Drs. Kellner CH, Burns CM, Bernstein HJ, Monroe RR Jr, George

MS. Krueger RB, Silver JM (letter). Summer 354
Safe administration of ECT in a patient with a calcified frontal mass. (letter). Kellner CH, Burns CM, Bernstein HJ, Monroe RR Jr, George MS. Summer 353–354
Electroencephalogram
Average reference EEG lateralization in schizophrenic patients (clinical and research report). Merrin EL, Floyd TC. Summer 307–314
EEG coherence of prefrontal areas in normal and schizophrenic males during perceptual activation. Hoffman RE, Buchsbaum MS, Escobar MD, Makuch RW, Nuechterlein KH, Guich SM. Spring 169–175
Limbic system dysrhythmia: a diagnostic electroencephalogram procedure utilizing procaine activation (clinical and research report). Ryback RS, Gardner EA. Summer 321–329
Sleep EEG in depressed and nondepressed patients with Parkinson's disease. Kostic VS, Susic V, Przedborski S, Sternic N. Spring 176–179
Emotion
Comparison of patients with and without emotional/behavioral deterioration during the first year after traumatic brain injury. Dunlop TW, Udvarhelyi GB, Stedem AFA, O'Connor JMC, Isaacs ML, Puig JG, Mather JH. Spring 150–156

F

Frontal Lobe
Neuropsychological correlates of obsessive characteristics in Tourette syndrome. Bornstein RA. Spring 157–162

G

Glucose Metabolism
Positron-emission tomographic studies of the relationship of cerebral glucose metabolism and the magnitude of anxiety and hostility experienced during dreaming and waking. Gottschalk LA, Buchsbaum MS, Gillin JC, Wu J, Reynolds CA, Herrera DB. Spring 131–142

H

Hallucinations
Hallucinations and associated factors in Alzheimer's disease. Gilley DW, Whalen ME, Wilson RS, Bennett DA. Fall 371–376
Hippocampus
Hippocampal abnormalities in depression. Krishnan KRR, Doraiswamy PM, Figiel GS, Husain MM, Shah SA, Na C, Boyko OB, McDonald WM, Nemeroff CB, Ellinwood EH Jr. Fall 387–391
Hostility
Positron-emission tomographic studies of the relationship of cerebral glucose metabolism and the magnitude of anxiety and hostility experienced during dreaming and waking. Gottschalk LA, Buchsbaum MS, Gillin JC, Wu J, Reynolds CA, Herrera DB. Spring 131–142
Human Immunodeficiency Virus
Longitudinal evaluation of neuropsychological function in homosexual men with HIV infection: 18-month follow-up. Saykin AJ, Janssen RS, Sprehn GC, Kaplan JE, Spira TJ, O'Connor B. Summer 286–298
Neuropsychological abnormalities in asymptomatic HIV seropositive military personnel. Klusman LE, Moulton JM, Hornbostel LK, Picano JJ, Beattie MT. Fall 422–428
Hypnosis
Neurophysiological correlates of hypnosis and dissociation (neuropsychiatric practice and opinion). Spiegel D. Fall 440–445
Inhalant Abuse
Reversibility of psychiatric symptoms in a chronic solvent abuser: a case report (clinical and research report). Katzelnick DJ, Davar G, Scanlon JP. Summer 319–321

L

Letters
Cystolic-free calcium concentrations in skin fibroblasts of patients with bipolar disease. Sacchetti E, Malgaroli A. Winter 114
Reply to Drs. Kellner CH, Burns CM, Bernstein HJ, Monroe RR Jr, George MS. Krueger RB, Silver JM. Summer 354
Prospective uses of ECT in the presence of intracranial tumors. Mattingly G, Figiel GS, Jarvis MR, Zorumski CF. Fall 459–463
Safe administration of ECT in a patient with a calcified frontal mass. Kellner CH, Burns CM, Bernstein HJ, Monroe RR Jr, George MS. Summer 353–354
Treatment of panic disorder and benzodiazepine withdrawal with valproate. McElroy SL, Keck PE Jr, Lawrence JM. Spring 232–233
Wernicke-Korsakoff syndrome. McNamara ME, Campbell JJ. Spring 232
Limbic System
Limbic system dysrhythmia: a diagnostic electroencephalogram procedure utilizing procaine activation (clinical and research report). Ryback RS, Gardner EA. Summer 321–329

M

Magnetic Resonance Imaging
Aging of the human corpus callosum: magnetic resonance imaging in normal volunteers. Doraiswamy PM, Figiel GS, Husain MM, McDonald WM, Shah SA, Boyko OB, Ellinwood EH Jr, Krishnan KRR. Fall 392–397
Cerebral magnetic resonance imaging compared in Alzheimer's and multi-infarct dementia. Reed KM, Rogers RL, Meyer JS. Winter 51–57
Quantitative magnetic resonance imaging in Rett syndrome (clinical and research report). Casanova MF, Naidu S, Goldberg TE, Moser HW, Khoromi S, Kumar A, Kleinman JE, Weinberger DR. Winter 66–72
Subcortical hyperintensities on brain magnetic resonance imaging: a comparison of normal and bipolar subjects. Figiel GS, Krishnan KRR, Rao VP, Doraiswamy M, Ellinwood EH Jr, Nemeroff CB, Evans D, Boyko O. Winter 18–22
Violence and temporal lobe lesion: head CT and MRI data (clinical and research report). Tonkonogy JM. Spring 189–196
Memory
Depression and memory in major depressive disorder (clinical and research report). Bornstein RA, Baker GB, Douglass AB. Winter 78–80
A retrospective analysis of the effects of anticholinergic medication on memory performance in Parkinson's disease. Levin BE, Llabre MM, Reisman S, Weiner WJ, Brown MC. Fall 412–416
Methylphenidate
Neuroendocrine responses to methylphenidate and *d*-amphetamine: applications to attention-deficit disorder. Lurie S, O'Quinn A. Winter 41–50
Psychostimulants in post-stroke depression. Masand P, Murray GB, Pickett P. Winter 23–27
Multiple Sclerosis
The interaction between depressive affective disorder and neuropsychological test performance in multiple sclerosis patients. Schiffer RB, Caine ED. Winter 28–32

N

Neuroendocrine Secretion
Neuroendocrine responses to methyl-

phenidate and *d*-amphetamine: applications to attention-deficit disorder. Lurie S, O'Quinn A. Winter 41–50

Neuroleptic Malignant Syndrome

Cerebral infarction in neuroleptic malignant syndrome (clinical and research report). Pullicino P, Galizia AC, Azzopardi C. Winter 75–77

Neuroleptics

Electromechanical characteristics of tardive dyskinesia. Wirshing WC, Cummings JL, Dencker SJ, May PRA. Winter 10–17

Neuropsychiatric Practice and Opinion

Can schizophrenia be localized? Trimble MR. Winter 89–94

Catatonia: a contemporary approach. Rogers D. Summer 334–340

Failure at task-specific regional brain activation: new conceptualization of a disease entity. Wexler BE. Winter 94–98

Neurophysiological correlates of hypnosis and dissociation. Spiegel D. Fall 440–445

A two-part model of stimulant action on attention-deficit hyperactivity disorder in children. McCracken JT. Spring 201–209

What can neurological models of attention, intention, and arousal tell us about attention-deficit hyperactivity disorder? Voeller KKS. Spring 209–216

Neuropsychiatry

Electroconvulsive therapy as a probe of the boundaries of neuropsychiatry (editorial). Dubovsky SR. Fall 361–363

Psychoanalysis, psychopharmacology, and the influence of neuropsychiatry (editorial). Yudofsky SC. Winter 1–5

Neuropsychology

Brain injury and cognitive function in late-onset psychotic depression. Lesser IM, Miller BL, Boone KB, Hill-Gutierrez E, Mehringer CM, Wong K, Mena I. Winter 33–40

The interaction between depressive affective disorder and neuropsychological test performance in multiple sclerosis patients. Schiffer RB, Caine ED. Winter 28–32

Longitudinal evaluation of neuropsychological function in homosexual men with HIV infection: 18-month follow-up. Saykin AJ, Janssen RS, Sprehn GC, Kaplan JE, Spira TJ, O'Connor B. Summer 286–298

Neuropsychological correlates of obsessive characteristics in Tourette syndrome. Bornstein RA. Spring 157–162

Neuropsychological performance and urinary phenylethylamine in Tourette's syndrome. Bornstein RA, Baker GB. Fall 417–421

The neuropsychology of depression in the elderly: a comparative study of normal aging and Alzheimer's disease. King DA, Caine ED, Conwell Y, Cox C. Spring 163–168

Predicting severity of depression in the elderly at six-month follow-up: a neuropsychological study (clinical and research report). King DA, Caine ED, Conwell Y, Cox C. Winter 64–66

O

Obsessive-Compulsive Disorder

Neuropsychological correlates of obsessive characteristics in Tourette syndrome. Bornstein RA. Spring 157–162

A pilot follow-up study of childhood soft signs and the development of adult psychopathology (clinical and research report). Hollander E, DeCaria CM, Aronowitz B, Klein DF, Liebowitz MR, Shaffer D. Spring 186–189

P

Panic Disorder

Treatment of panic disorder and benzodiazepine withdrawal with valproate (letter). McElroy SL, Keck PE Jr, Lawrence JM. Spring 232–233

Parkinson's Disease

ECT-induced delirium in depressed patients with Parkinson's disease. Figiel GS, Hassen MA, Zorumski C, Krishnan KRR, Doraiswamy PM, Jarvis MR, Smith DS. Fall 405–411

The effects of electroconvulsive shock on Dopamine-1 and Dopamine-2 receptor ligand binding activity in MPTP-treated mice. Sershen H, Wolinsky T, Douyon R, Hashim A, Wiener HL, Lajtha A, Coons EE, Serby M. Winter 58–63

A retrospective analysis of the effects of anticholinergic medication on memory performance in Parkinson's disease. Levin BE, Llabre MM, Reisman S, Weiner WJ, Brown MC. Fall 412–416

Sleep EEG in depressed and nondepressed patients with Parkinson's disease. Kostic VS, Susic V, Przedborski S, Sternic N. Spring 176–179

Passive P300 Response

Passive P300 response in traumatic brain injury patients. Rappaport M, McCandless KL, Pond W, Krafft MC. Spring 180–185

Physostigmine Syndrome

Observations on the physostigmine syndrome in patients with Alzheimer's disease (clinical and research report). Wirkowski E, Prohovnik I, Young WL. Winter 73–75

Positron Emission Tomography

Positron-emission tomographic studies of the relationship of cerebral glucose metabolism and the magnitude of anxiety and hostility experienced during dreaming and waking. Gottschalk LA, Buchsbaum MS, Gillin JC, Wu J, Reynolds CA, Herrera DB. Spring 131–142

Procaine

Limbic system dysrhythmia: a diagnostic electroencephalogram procedure utilizing procaine activation (clinical and research report). Ryback RS, Gardner EA. Summer 321–329

Psychoanalysis

Psychoanalysis, psychopharmacology, and the influence of neuropsychiatry (editorial). Yudofsky SC. Winter 1–5

Psychopharmacology

Psychoanalysis, psychopharmacology, and the influence of neuropsychiatry (editorial). Yudofsky SC. Winter 1–5

A two-part model of stimulant action on attention-deficit hyperactivity disorder in children (neuropsychiatric practice and opinion). McCracken JT. Spring 201–209

Psychosis

Risk factors for developing atypical (schizophreniform) psychosis following stroke. Rabins PV, Starkstein SE, Robinson RG. Winter 6–9

Psychostimulants

Psychostimulants in post-stroke depression. Masand P, Murray GB, Pickett P. Winter 23–27

R

Rett Syndrome

Quantitative magnetic resonance imaging in Rett syndrome (clinical and research report). Casanova MF, Naidu S, Goldberg TE, Moser HW, Khoromi S, Kumar A, Kleinman JE, Weinberger DR. Winter 66–72

S

Schizophrenia

Attention and higher cortical functions in schizophrenia. Kenny JT, Meltzer HY. Summer 269–275

Average reference EEG lateralization in schizophrenic patients (clinical and research report). Merrin EL, Floyd TC. Summer 307–314

Can schizophrenia be localized? (neuropsychiatric practice and opinion). Trimble MR. Winter 89–94

EEG coherence of prefrontal areas in

normal and schizophrenic males during perceptual activation. Hoffman RE, Buchsbaum MS, Escobar MD, Makuch RW, Nuechterlein KH, Guich SM. Spring 169–175

The nucleus basalis of Meynert, senile plaques, and intellectual impairment in schizophrenia. El-Mallakh RS, Kirch DG, Shelton R, Fan K-J, Pezeshkpour G, Kenhouwa S, Wyatt JR, Kleinman JE. Fall 383–386

Schizophreniform Psychosis

Risk factors for developing atypical (schizophreniform) psychosis following stroke. Rabins PV, Starkstein SE, Robinson RG. Winter 6–9

Serotonergic System

Spontaneous remission of post-stroke depression and temporal changes in cortical S_2-serotonin receptors (clinical and research report). Mayberg HS, Parikh RM, Morris PLP, Robinson RG. Winter 80–83

Sleep

Neurological findings in insomniacs with periodic limb movements (clinical and research report). McCall WV, Edinger JD, Lininger A. Fall 429–430

Positron-emission tomographic studies of the relationship of cerebral glucose metabolism and the magnitude of anxiety and hostility experienced during dreaming and waking. Gottschalk LA, Buchsbaum MS, Gillin JC, Wu J, Reynolds CA, Herrera DB. Spring 131–142

Sleep EEG in depressed and nondepressed patients with Parkinson's disease. Kostic VS, Susic V, Przedborski S, Sternic N. Spring 176–179

Soft-sign Abnormalities

A pilot follow-up study of childhood soft signs and the development of adult psychopathology (clinical and research report). Hollander E, DeCaria CM, Aronowitz B, Klein DF, Liebowitz MR, Shaffer D. Spring 186–189

Stroke

Depression after stroke: the importance of cerebral hemisphere asymmetries. Starkstein SE, Bryer JB, Berthier ML, Cohen B, Price TR, Robinson RG. Summer 276–285

Risk factors for developing atypical (schizophreniform) psychosis following stroke. Rabins PV, Starkstein SE, Robinson RG. Winter 6–9

Spontaneous remission of post-stroke depression and temporal changes in cortical S_2-serotonin receptors (clinical and research report). Mayberg HS, Parikh RM, Morris PLP, Robinson RG. Winter 80–83

Subcortical Diseases

Brain injury and cognitive function in late-onset psychotic depression. Lesser IM, Miller BL, Boone KB, Hill-Gutierrez E, Mehringer CM, Wong K, Mena I. Winter 33–40

Subcortical hyperintensities on brain magnetic resonance imaging: a comparison of normal and bipolar subjects. Figiel GS, Krishnan KRR, Rao VP, Doraiswamy M, Ellinwood EH Jr, Nemeroff CB, Evans D, Boyko O. Winter 18–22

T

Tardive Dyskinesia

Differential diagnosis of choreiform tardive dyskinesia. Hyde TH, Hotson JR, Kleinman JE. Summer 255–268

Electromechanical characteristics of tardive dyskinesia. Wirshing WC, Cummings JL, Dencker SJ, May PRA. Winter 10–17

Temporal Lobe

Violence and temporal lobe lesion: head CT and MRI data (clinical and research report). Tonkonogy JM. Spring 189–196

Tourette Syndrome

Neuropsychological correlates of obsessive characteristics in Tourette syndrome. Bornstein RA. Spring 157–162

Neuropsychological performance and urinary phenylethylamine in Tourette's syndrome. Bornstein RA, Baker GB. Fall 417–421

Traumatic Brain Injury

Comparison of patients with and without emotional/behavioral deterioration during the first year after traumatic brain injury. Dunlop TW, Udvarhelyi GB, Stedem AFA, O'Connor JMC, Isaacs ML, Puig JG, Mather JH. Spring 150–156

Passive P300 response in traumatic brain injury patients. Rappaport M, McCandless KL, Pond W, Krafft MC. Spring 180–185

W

Wernicke-Korsakoff Syndrome

Wernicke-Korsakoff syndrome (letter). McNamara ME, Campbell JJ. Spring 232

Wilson's Disease

The psychiatric presentations of Wilson's disease. Akil M, Schwartz J, Dutchak D, Yuzbasiyan-Gurkan V, Brewer GJ. Fall 377–382
